Dear Linda,

Per my recent email, I have enclosed the following information. The fuel nozzle/injector testing conducted by Ricardo was not attached to the noted email, but was discussed in the recent FTD Workshop.

- Syntroleum responses to "Data Gaps," as per a reporting received by Marc Goodman
- California Energy Commission test data
- Ricardo analysis of Syntroleum S-2 and BP Low Sulfur Diesel
- Ricardo fuel nozzle/injector test data

Please let us know how we can assist further.

Best regards,
